

Koala Kare and Microban®

Koala Kare Products is the world's most recognized brand of baby changing stations and commercial childcare products. Helping operators of public establishments equip their operations to accommodate the needs of caregivers and their children is what Koala Kare Products is all about.

Microban® is a global specialist in antimicrobial technologies and odor control solutions. Its proven formulations have been successfully integrated into a range of materials that help provide lasting product protection against the growth of bacteria, mold, mildew and algae.

Koala Kare exclusively partners with Microban® to integrate powerful antimicrobial product protection into our baby changing stations to inhibit the growth of stain- and odor-causing bacteria on product surfaces. Koala Kare was the first maker of baby changing stations to introduce Microban® antimicrobial product protection to the market, which helps address the important cleanliness concerns of caregivers.

75% of consumers believe that antimicrobial products are effective at preventing the growth of bacteria

97% of consumers cited Microban® product protection as very important in public restrooms

78% of consumers are concerned about germs/bacteria when using public restrooms

The Microban Advantage

Microbes are everywhere. They can survive in almost any environment, but the more available nutrients they can find, the more they flourish. That makes bathrooms especially vulnerable to microbial growth.

The best way to avoid stains and odors from microbes is to prevent their growth in the first place, and Koala Kare uses Microban® to protect its products from restroom microbes and keep our baby changing stations fresh and clean.

Learn about the key pillars of Microban® product protection:

VALUE	TRUST	POWER	CONVENIENCE
<i>Microban® lasts for the lifetime of the product and can even increase product longevity.</i>	<i>Microban® is effective against a broad spectrum of bacteria and offers invisible protection with visible cleanliness.</i>	<i>Microban® has a long history of safe and effective use and provides peace of mind that a product is cleaner.</i>	<i>Microban® works continuously to keep products cleaner between cleanings.</i>
