

# KB116 and KB117 BOOSTER BUDDY REPLACEMENT FEET INSTRUCTIONS

P/N 617-KIT

## Tools Required:

Rubber Mallet

1. Fill a small bowl or cup with warm, soapy water and place the Booster Buddy replacement feet in the water. Allow the feet to sit on the water for a couple of minutes.
2. Remove one of the feet from the water and align the pointed end with one of the feet holes in the Booster Buddy. (There are 4 feet in this kit: 2 large and 2 small. Please ensure you are using the correct size replacement foot in the correct foot hole.)
3. Using a rubber mallet, tap the foot into place.
4. Repeat steps 2 and 3 until all the missing feet have been replaced.
