

UPGRADE YOUR CURRENT BABY CHANGING STATION TO THE NEW KOALA KB200 \$25 REBATE OFFER

Operators who currently have a baby changing station, regardless of brand and model type in their facility, can upgrade their existing unit by purchasing a new Koala KB200 from promoting distributors.

How It Works: Operators will pay the distributor his asking price for the KB200. When replacing the existing unit, the operator removes the liner dispenser lid to verify an older unit is being replaced, fills out this rebate form, complies with the terms and conditions (below), and mails the rebate to Koala. Koala will verify that terms and conditions have been met, and mail the rebate check to the operator for a net \$25 savings.

To receive your \$25 rebate from Koala Kare Products, please mail this completed rebate form along with a copy of your KB200 purchase invoice and the Baby Changing Station liner dispenser lid of the unit that is being replaced to:

KB200 Trade-In Upgrade Offer
Koala Kare Products
6982 S. Quentin St
Centennial, CO 80112
