You are responsible for the safe operation of this unit.

KB111-SSRE Operating Instructions

Please Note: To assure proper installation, it is suggested that a qualified person or carpenter install the Koala Baby Changing Station. Koala Kare Products will not be responsible if the station is not installed properly. Koala Baby Changing Stations have been tested to hold a substantial static load. The unit must be attached to a permanent wall that is capable of holding a substantial load. The maximum recommended total weight for this baby changing station (including baby and parcel bag) is 60 lbs. Excessive weight may cause a hazardous or unstable condition to exist.

Restraint System: To fasten the waist restraint strap, place strap around child's midsection, and push spring tabs into buckle until both spring tabs lock in place with an audible "click". Straps can be adjusted to make strap tighter or looser as required.

Inspection Criteria:

A properly maintained baby changing station should be inspected on a daily basis and parts replaced if they do not pass inspection criteria.

- Has a pneumatic shock that controls the smooth opening and closing of the unit. Shock may need replacement if door opens or closes too rapidly or door doesn't close completely.
- Has both ends of a functioning, non-frayed strap: buckle clicks when closed and strap is attached to unit at both ends.
- Has a warning label affixed to the product.
- Offers parents liners through a fully stocked liner dispenser. (Dispenser built into unit.)
- Provides a clean changing surface for customers to attend to their children.

Tools Needed

gloves

drill

pencil

stud finder

measuring tape

1/8" (3 mm)
(regular & masonry)
drill bits

Phillips head
screwdriver

level

9/16" Socket Wrench

Hardware Provided

two mounting brackets

eight Phillips Flat
head screws

four acorn nuts

four 1/4" flat washers

KB111-SSRE Installation Instructions

Vertical Recessed Mounted Baby Changing Station

Step 1.

Remove the station from the shipping container and check for any freight damage. Identify the best location for installing the baby changing station. Hold the unit in place, open the bed, and make sure that there is adequate operating clearance.

Step 2.

Select the wall area where the Baby Changing Station will be installed. Measure from the floor, at the center of the stud, and mark the wall at $62\frac{5}{8}$ " (1591 mm). Hold the unit in place to verify alignment. Cut a hole $22\frac{1}{8}$ " (562 mm) wide, $35\frac{5}{8}$ " (905 mm) high, and 4" (102 mm) deep in the wall and construct mounting frame as shown in the figure on the right. If the wall surface is masonry or tile over wood studs, use caution when cutting the hole for the unit.

Step 3.

The unit comes with two mounting brackets that need to be secured to the mounting frame as shown in drawing.

Step 4.

Use the acorn nuts and flat washers to secure the Baby Changing Station to the mounting bracket. It may be necessary to adjust the door to square by using a shim on the top right or left side of the unit before tightening securely to the wall.

Step 5.

Clean work area and inspect unit to ensure it opens and closes smoothly. Replacement parts and additional liners can be purchased from your local distributor or by calling Koala at 303.539.8300.

KB111-SSRE ASTM F2285

ENGLISH

⚠ WARNING:
Never leave child unattended.

⚠ WARNING: Avoid serious injury from falling or sliding out. Always use restraint system.

⚠ WARNING: Designed for Infants Only. Age up to 3.5 years and weighing less than 50 lbs. Keep one hand on the child at all times.

Parcels or accessory items, or both, placed on the unit may cause the unit to become unstable.

ESPAÑOL

⚠ ADVERTENCIA:
No deje nunca al niño desatendido.

⚠ ADVERTENCIA: Evite que el niño se lesione por caerse o resbalarse del cambiador Use siempre el sistema de sujeción.

⚠ ADVERTENCIA: Diseñado exclusivamente para bebés. Hasta 3 años y medio de edad y con un peso inferior a 50 libras (22,5 kg aproximadamente). Mantenga siempre al niño sujeto con una mano.

Colocar paquetes o accesorios, o ambas cosas, encima del cambiador puede provocar que se desestabilice.

FRANÇAIS

⚠ ATTENTION:
Ne laissez jamais un enfant sans surveillance.
